1. Lengkapi kode program berikut sehingga didapat output yang diinginkan.

Input	Output
6 4	***** ***** ***** *****
7 3	***** ***** *****

```
#include<iostream>
using namespace std;

void Persegi (int x, int y, int z){
    if(..(c)..){
        if(..(d)..){
            cout << ..(e)..;
            Persegi(z,y-1,z);
        }
        else{
            cout << "*";
            Persegi(..(f)..);
        }
    }
}

int main(){
    int p, l;
    cin >> p >> ..(a)..;
    Persegi(..(b)..);
    return 0;
}
```
